See better, work better

All-in-one lighting system for professionals

The MDLS is an all-in-one work lighting solution representing a new generation of inspection lamps designed for professionals. Robust and hands-free, the three multidirectional modules will provide you with optimal visibility without shadow. This 'Special Edition' was a collaboration between Philips and Grease Junkie by Edd China.

Optimal visibility, no shadow

- Defeat darkness with soft natural light
- Light output: up to 750 lumen (up to 350 lumen/module)
- High-power LUXEON® LED light
- 3 multi-directional modules - 360° total illumination

High resistance

- Strong impact resistance -IK07
- Water and dust protected -IP54

Hands-free lighting

- 300° rotating head and strong bottom magnet
- Heavy duty clamping hook
- Fast rechargeable, energy saving battery technology

PHILIPS

Highlights

Water and dust protected -IP54

The LED inspection lamp is water resistant and conforms to IP54.

Strong impact resistance -IK07

Strong impact resistance -IK07

Fast Rechargeable

Fast Rechargeable, Energy saving battery technology. Since the modules are fast charging, whenever one of the modules is charged and ready for the job, you can take it out directly.

300° rotating head and magnet

The 300° rotating head and strong bottom magnet will enable you to achieve a shadow-free workspace for optimum safety and efficiency.

Heavy-duty clamping hook

With its heavy-duty clamping hook, you will have the possibility of hanging this module on any surface, leaving both your hands free for the job.

Defeat darkness

Philips's professional workshop lamps feature powerful LEDs for an intense white light and a bright wide beam to defeat darkness. Designed to optimise clarity and vision, the 6000 K white light also improves visual comfort for fatigue-free working.

Light output

The combined light output of the 3 modules in normal (boost) mode amounts to 360 (750) lumens. 360 lumens' light output should provide you with sufficient light in any environment with background lighting. If that is not enough you can easily switch to boost mode with a flick of the switch.

High-power LUXEON® LED light

The high-power LUXEON® T LED is designed to deliver high-efficacy light with high flux density to enable tight beam control in directional and high-lumen applications.

3 multidirectional modules

The 3 multidirectional modules will provide you with full visibility of your work space with no shadow when you focus on specific parts. When you place each of the 3 different modules at a different angle, no area will remain unlit. 360-degree illumination!

3-Pack Multi-Directional Lighting System Edd China

High-power LUXEON® LED 360 lm / 750 lm, 3 Rechargeable Modules, More Visible Colour Design

Specifications

Outer Carton

- Number of consumer packages: 1
- Outer carton (L x W x H): 33.1 x 15.7 x 14.8 cm
- Gross weight: 2.1 kg
- EAN3: 8727900395174

Ordering information

- Orderentry: LPL373MODX1
- Ordering code: 39516766

Electrical characteristics

- Battery capacity: 1800 mAh
- Battery charging time: 2 hrs
- Battery run time: Up to 6 hours
- Plug type: EU / UK
- Power source: Rechargeable
- Voltage: 100–240 V
- Wattage: 3.7 W

Light characteristics

- Colour temperature: 6000 K
- LED lifetime: 10,000 hrs
- Light output: 750 lumen

Outer pack information

- Gross weight per piece: 2100 g

- Height: 14.8 cm
- Length: 33.1 cm
- Width: 15.7 cm

Packaging Data

- EAN1: 8727900395167
- EAN3: 8727900395174

Packed product information

- Diameter: 6.5 cm
- Height: 8.7 cm
- Pack Quantity / MOQ: 1
- Weight with batteries: 660 g

Product description

- Hook: Heavy-duty clamping hook
- Impact protection rating (IK): IK07
- Ingress protection rating (IP): IP54
- Magnet
- Materials and finishing: Aluminium housing
- Number of LEDs: 3
- Operating Temperature: -20 to 60 °C
- Orientable light: 300° rotating head
- Resistant to: grease, oil, workshop solvents
- Technology: LED
- Range: MDLS

Issue date 2015-10-30

Version: 3.0.4

12 NC: 9237.958.60201
EAN1: 8727900395181
